Web 3 developers Overview

Emerging Blockchain developers Continue to Contribute While Many Newcomers Have Left

We can segment monthly active developers by how long they have worked in web3 by comparing the time between their first and last commits.

- Newcomers: developers who worked in web3 less than 1 year
- Emerging Developers: developers who worked in web3 1 to 2 years
- Established Developers: developers who worked in web3 2+ years

Emerging Developers are growing and Established Developers are steady. The decline in monthly active developers in the last year came from Newcomers.

From June 2023 to June 2024:

- -52% Newcomers (-9K developers)
- -1% Emerging Developers (-84 developers)
- +33% Established Developers (+2K developers)

Ecosystem Overview

- 360+ Projects building upon Sui.
- Wide-Array of dAAps ranging from:
 - NFT, Gaming, DeFi,
